CHAPTER VII

PPP CONTRACT

Article 24 . _

The principles of the PPP Contract are prescribed as follows:

- 1- The PPP Contract shall be prepared in accordance with specific project features as specified in the result of the Feasibility Study that shall be agreed upon by the Royal Government and the Private Partner.
- 2- The PPP Contract shall be an agreement of a commercial nature between the Implementing Agency and the Private Partner. The Implementing Agency shall be accountable for ensuring the contract is entered into through transparent and fair practices for all and any PPP Projects, both Solicited Projects and Unsolicited Projects.
- 3- The PPP Contract shall allocate PPP project-related risks between the Royal Government and the Private Partner, enabling the Royal Government to benefit from the principle of Value for Money while maintaining a reasonable commercial return for the Private Partner.
- 4- The determination of the Private Partner's benefits in a PPP Contract shall be based on the performance of the project implementation.

Article 25 . _

Each draft PPP Contract shall be formed based on any of appropriate PPP Models. The selection of appropriate PPP Models is determined by the unique features and specific requirements of each PPP Project; and selected by the Implementing Agency and the Ministry of Economy and Finance based on the findings of the Feasibility Study.

Common PPP models for the preparation of draft PPP Contract shall be prescribed in Annex II of this Law.

Article 26 . _

All charges and fees collectable under the framework of a PPP project, including adjustment formulas thereof shall be stipulated in the PPP Contract. Such specifications within the PPP Contract shall be based on the principle of ensuring a reasonable rate of return for the Private Partner while ensuring affordability to end-users and the State.

The Private Partner has the rights to collect and receive revenues from the usage fees and other service charges, and the rights to revise charges and fees in accordance with terms and conditions as stipulated in the PPP Contract and/or relevant agreement(s).

Article 27 . _

The PPP Contract shall be governed by applicable laws and regulations of the Kingdom of Cambodia.

The Private Partner may select which governing law would apply to the ancillary agreement relating to the implementation of the PPP Contract, except for the case where a public entity of the Kingdom of Cambodia is a party of the agreement.

Article 28 . _

The assignment of rights and obligations of the Private Partner within the PPP Contract to any third party shall require prior approval from the Royal Government, except for the case of step-in rights as stipulated in Article 29 of this Law.

The PPP Contract shall specify the conditions, including conditions that both consignee and consignor shall fulfill to obtain the approval of the Royal Government on the assignment of rights and obligations of the Private Partner within the PPP Contract.

Article 29 . _

Both parties to the PPP Contract may agree on the provision of step-in rights in favor of the lender(s) to the Project and/or the Royal Government. The receiver of the step-in rights may obtain and renew the rights and obligations as stipulated in the PPP Contract to ensure continued performance of the Private Partner's obligations under the framework of the PPP Contract and/or loan agreements relating to the Project.

Article 30 . _

The PPP Contract shall specify the conditions for the contract amendment. Conditions which are permitted to amend the PPP Contract relating to construction, and/or services may include changes in laws or legal provisions, changes in size or output specifications of the project construction, changes in service fees, changes in service demands, force majeure or other circumstances, as stipulated in the PPP Contract.

The Implementing Agency shall request the decision of the Ministry of Economy and Finance on the amendment of the PPP Contract pursuant with applicable laws and regulations, prior to signing any agreements on the amendment on the PPP Contract with the Private Partner.

The amendment of the PPP Contract shall be complied with the PPP Contract management guidelines which shall be determined by the Royal Government.

CHAPTER VIII

INVESTMENT INCENTIVES FOR PPP PROJECTS

Article 31 . _

Entities implementing any PPP Project shall be subject to the existing taxation regime law and be entitled to any incentives and exemptions in accordance with applicable laws and regulations of the Kingdom of Cambodia.

Article 32 . _

The Private Partner may request for investment incentives for the PPP project, pursuant with regulations stipulated in the Law on Investment of the Kingdom of Cambodia and other applicable laws.

Article 33 . _

Activities on foreign exchange by the Private Partner shall be undertaken in accordance with applicable laws and regulations of the Kingdom of Cambodia.

CHAPTER IX

PROJECT IMPLEMENTATION AND MONITORING

Article 37 . _

The Private Partner may implement a PPP project by itself or through its Contractor(s).

The Private Partner's candidate(s) shall clearly specify its Key Contractor(s) within the request for proposals in the selection process of the Private Partner. The definition of Key Contractor(s) is based on the features and scope of each PPP Project and shall be specified in the tender documents. Changes in Key Contractor(s) shall not be permitted, without the prior approval by the Implementing Agency and the Ministry of Economy and Finance.

The Private Partners shall have full rights on the selection and changes of contractor(s) that is not a Key Contractor, without the prior approval of the Implementing Agency.

With or without the Contractor(s), the Private Partner shall be wholly liable for the performance of its obligations as stipulated with terms and conditions of the PPP Contract.

Article 38 . _

If the PPP project requires the Private Partner to provide an operating performance security, the Private Partner shall provide the security to the Implementing Agency to ensure proper implementation of operations in accordance with the operating parameters and other specifications as stipulated in the PPP Contract. The tender documents for the selection of the Private Partner and the PPP Contract shall specify the form, value and validity of the performance security for operations required from the Private Partner.

Article 39 . _

The management, operations, and maintenance of commercial Project Asset(s) in accordance with applicable laws and regulations and as specified by terms and conditions as stipulated in the PPP Contract may be directly implemented by the Private Partner or through its management Contractor(s) on its behalf. In case Contractor(s) assumes management roles on behalf of the Private Partner, the Private Partner shall remain wholly liable for the management, operation and maintenance of the project asset(s) as stipulated in the PPP Contract.

During the period of management, operations and maintenance of Project Asset(s), the Private Partner shall fulfill the following obligations such as:

- 1- Implement operating/commercial rights on the Project Asset(s) to ensure the provision of services to the lawful users of the Project Asset(s) is equal and non-discriminatory, or without refusal of service to any users agreeing to pay the publicly available usage rate of the Project Asset(s).
- 2- Ensure that Project Asset(s) can be operated and are available for use in accordance with the technical specifications and other specifications as stipulated in the PPP Contract;
- 3- Ensure the provision of products and/or services in the quantity, quality and within the time-limit agreed upon as stipulated in the PPP Contract.
- 4- Other obligations as stipulated in the PPP Contract.

Article 40 . _

The Implementing Agency shall be responsible for the management, monitoring and progress report, completion report on the post-project implementation, and other relevant reports based on obligations as stipulated in the PPP Contract, submitted to Ministry of Economy and Finance in order to prepare a consolidated report to the Royal Government to ensure the implementation by both parties has complied with terms and conditions as stipulated in the PPP Contract. With regard to the implementation of those responsibilities, the Implementing Agency may prepare the project management structure, which may include support from relevant public institutions and consultants within the areas of competences, such as technical, legal, financial and contract management.

The Private Partner shall be responsible for reporting to the Implementing Agency and to the Ministry of Economy and Finance on the status, progress and performance of the project implementation, including financial performance when necessary as stipulated in the PPP Contract.

CHAPTER X

CONTRACT PERIOD, TERMINATION AND HANDBACK

Article 41 . _

The PPP Contract shall specify the contract period and conditions to extend the contract period. The determination of the initial contract period shall be based on the factors of Project Asset(s)' life expectancy and the duration the Private Partner requires to recover its cost of investment. The initial contract period shall not exceed 30 (thirty) years from the date of signing of the Contract. In case of necessity and based on the model of the PPP Projects, the Royal Government may determine the initial contract period beyond 30 (thirty) years.

Article 42 . _

The PPP Contract shall specify the circumstances for contract termination prior to its expiry, such as in the event either party to the PPP Contract defaults on its obligations, force majeure, and/or early termination by the Royal Government.

The PPP Contract shall specify the rights and obligations of both parties to be fulfilled, mechanisms and formulas for calculating compensation in the event of early termination of the contract.

Article 43 . _

In the event the Private Partner has the obligations to hand back the Project Asset(s) to the Royal Government, the PPP Contract shall specify the conditions, and procedures for the hand-back of that Project Asset(s). When handing back the Project Asset(s), the Private Partner shall ensure that the Project Asset(s) is in a specified condition as agreed in the PPP Contract.

The hand-back of the Project Asset(s) shall comply with the contract management guidelines which shall be determined by the Royal Government.

CHAPTER XI

DISPUTE RESOLUTIONS

Article 44 . _

Any dispute arising between the Implementing Agency and the Private Partner related to the PPP Contract shall be resolved in accordance with a dispute resolution mechanism as stipulated in the PPP Contract.

Article 45 . _

In the case a PPP Contract or a Concession Agreement fails to prescribe a dispute resolution mechanism, the dispute between the Implementing Agency and the Private Partner related to the PPP Contract or Concession Agreement shall be resolved through the consultation between the Implementing Agency and the Private Partner under the mediation by the Ministry of Economy and Finance except for the land disputes.

Within 2 (two) months from the date of written complaint filed by either party requesting for mediation, if both parties fail to resolve the dispute through mediation, both parties may agree to send the dispute to the Commercial Arbitration of the Kingdom of Cambodia or international commercial arbitration. In case both parties are unable to send the dispute to the Commercial Arbitration of the Kingdom of Cambodia or international commercial arbitration, either party may file a complaint with the court of the Kingdom of Cambodia.

ANNEX I

GLOSSARY

- 1- **State Support** refers to financial and non-financial support, provided by the State to support the implementation of the PPP project. State Support may include the direct commitments (e.g. capital subsidies), contingent liabilities (e.g. guarantees), contributions of state asset(s) and other forms of assistance.
- 2- **Direct Negotiation/Selection** refers to procurement methodology for the selection of Private Partner required to directly negotiate a contract with the Private Partner's candidate to implement a PPP Project.
- 3- **Viability Gap Financing (VGF)** refers to a type of State Support, which is a direct subsidy on capital expenditures of a PPP Project in order to increase the financial viability of the Project for the Private Partner.
- 4- **Feasibility Study** refers to the study undertaken to assess possibility for procurement and project implementation through the PPP mechanism. The Feasibility Study shall analyze the technical, legal, market, commercial, economic, financial, environmental and social viability; including an analysis on the PPP model selection, risk assessment and allocation between the State and Private Partner, and analysis on the need for State Support.
- 5- **Novation Agreement** refers to the agreement in which both parties of a PPP Contract and a Special Purpose Company sign in accordance with applicable laws and regulations of the Kingdom of Cambodia to transfer the rights and obligations in full of the Private Partner in the PPP Contract to the Special Purpose Company while retaining the same terms and conditions of the PPP Contract.
- 6- **Ancillary Agreement** refers to the agreement between the Private Partner and Contractor(s) to implement the obligation of the Private Partner in accordance with the terms and conditions stipulated in the PPP Contract. The Implementing Agency is not required to sign the Ancillary Agreement but shall review and comment on the agreement to ensure consistency with terms and conditions of the PPP Contract.
- 7- **Relevant Agreement** refers to the agreement between a public entity, which is a party to an agreement, with the Private Partner or relevant entity in order to support the implementation of a PPP Project relating to the construction, financing, operations and maintenance.

- 8- Concession Agreement** refers to the agreement made in accordance with the Law on Concession.
- 9- PPP Contract** refers to the mutually binding agreement between an Implementing Agency and the Private Partner that sets forth terms and conditions for the implementation of a PPP project. The common PPP models used as the basis for setting the form of PPP Contracts are provided in Annex II of this Law.
- 10-Special Purpose Company** refers to an enterprise that shall be established in the Kingdom of Cambodia by investors in accordance with terms and conditions of the PPP Contract as pursuant with Article 22 of this Law, to act as the Private Partner of the PPP Contract for the implementation of the PPP project.
- 11-Solicited Project** refers to the PPP Project that has been proposed, prepared and advocated by the Implementing Agency, and has the potential to be implemented under the PPP mechanism. If the Project is approved by the Royal Government, the Implementing Agency shall issue a request for proposal for the selection of the Private Partner pursuant to Chapter VI of this Law.
- 12-Unsolicited Project** refers to a PPP Project that has potential to be implemented under the PPP mechanism and proposed by the private sector through the Implementing Agency.
- 13-Public Infrastructure Project** refers to design, construction, maintenance or operations of new infrastructure facilities or modernization, expansion, management, or operations of the existing infrastructure facilities.
- 14-Public Service Project** refers to services provided by public entities within their applicable functions and duties aiming at serving the public interest, and either natural or legal persons. This activity may be operated by the government itself or delegated to the private sector to implement but under the supervision of the government.
- 15-PPP Project** refers to infrastructure development projects and/or provision of public services implemented in accordance with the framework of the PPP Contract pursuant to this Law.
- 16-Private Partner** refers to the entity that enters into the PPP Contract with the Implementing Agency. In the event the Special Purpose Company is formed in accordance with Article 22 of this Law, the Private Partner shall therefore refer to the Special Purpose Company.
- 17-Value for Money** refers to the potential gains that can be provided to the State through the implementation of any Project under the PPP mechanism rather than through the public procurement. These gains may be evaluated

through qualitative and/or quantitative analysis of benefits and costs over the project's lifespan to demonstrate whether there are any positive benefits of the entire project life cycle. Guidelines for evaluating Value for Money shall be determined by the Royal Government.

18-Consultant(s) refers to consulting firms, experts, and/or service providers experienced in, such as financial, legal and technical aspects, in preparing and implementing PPP projects.

19-Project Asset(s) refers to physical facilities or systems to be built and/or operated under the PPP Contract that directly or indirectly provides public services.

20-Priority PPP Project List refers to a list of Eligible Projects identified and prioritized by the Implementing Agency, and approved by the Ministry of Economy and Finance in accordance with Article 10 of this Law.

21-Public-Private Partnerships refers to the agreement between the State and the Private Partner to restore, repair, expand, build, operate and/or maintain public infrastructure or Project Asset(s) or to provide public services within a specified period. Under this agreement, the Private Partner shall invest, bear part of the risks, and receive benefits based on performances in accordance with terms and conditions stipulated in the PPP Contract.

22-Unsolicited Proposal Proponent refers to the entity that prepares the Unsolicited Proposal pursuant to Article 23 of this Law.

23-Project Development Facility (PDF) refers to the financial State Support mechanism, funded by the use of national budget and other sources of fund, to finance studies, project preparation, procurement and other relevant tasks, which shall be determined by the Royal Government.

24-Investor(s) refers to any entity providing funds in the form of equity to the Private Partner in the implementation of the PPP Contract in accordance with applicable laws and regulations of the Kingdom of Cambodia.

25-Step-in Rights refers to the rights provided to lenders and/or the Royal Government to take over the PPP Contract for a specified period in the event that the Private Partner or the Special Purpose Company is unable to fulfill its obligations, which adversely affects the sustainability of the implementation of the PPP project.

26-Real Rights refers to the rights that have been defined under the Civil Code.

27-Implementing Agency refers to any ministries-institutions, equivalent public entities, public administration establishments, public enterprises and sub-national administrations that are responsible for the development of the PPP project and/or acting as the State entering into the PPP Contract with a Private Partner for the implementation of the PPP project.

28-Unsolicited Proposal refers to a written proposal by an Unsolicited Proposal Proponent to the Implementing Agency to develop a new project as a PPP project that offers new concepts, technologies, or innovation for the Kingdom of Cambodia.

29-Contractor(s) refers to contracting firms, suppliers or service providers selected by the Private Partner to support the implementation of the PPP Contract.

ANNEX II

COMMON PPP MODELS

- 1- Build-Operate-Transfer (BOT):** The Implementing Agency grants the Private Partner a right for design, finance, construct, operate and maintain Project Asset(s) and collect fees, tolls, rentals and other user charges from users of the Project's facilities or services for an agreed Contract Period as stipulated in the PPP Contract. After the expiry of the Contract Period, the Private Partner shall transfer all rights and benefits relating to the Project and the Project Asset(s) back to the Implementing Agency, in accordance with the terms of the PPP Contract. Variants of the BOT model include:

 - **Build-Lease-Transfer (BLT)**, wherein the Private Partner designs, finances and constructs the Project Asset(s) and after which leases the Project Asset(s) back to the Implementing Agency for a lease fee as stipulated in the PPP Contract. All other aspects of the BOT model remain the same under this variant.
 - **Build-Transfer-Operate (BTO)**, after the construction completion of Project Asset(s), the Private Partner shall transfer the title of the Project Asset(s) to the Implementing Agency. All other aspects of the BOT model remain the same under this variant.
- 2- Build-Own-Operate-Transfer (BOOT):** The Implementing Agency grants the Private Partner a right to design, finance, construct, operate and maintain Project Asset(s) and collect fees, tolls, rentals and user charges from users of the Project Asset(s) or services for an agreed contract period as stipulated in the PPP Contract. The BOOT model is distinct from the BOT model, where the Private Partner owns the rights to the Project Asset(s) during the contract period. After the expiry of the contract period, the Private Partner shall transfer all rights and benefits relating to the Project and the Project Asset(s) back to the Implementing Agency in accordance with terms and conditions of the PPP Contract.
- 3- Build-Own-Operate (BOO):** The Implementing Agency grants the Private Partner a right to design, finance, construct, own and operate Project Asset(s) in perpetuity or for an indefinite period, in accordance with terms and conditions of the PPP Contract. The Private Partner shall be entitled to make commercial use of the Project Asset(s), including collecting fees and other incomes from users of the Project's Asset(s) or services. Variants of the BOO model include:

- **Rehabilitate-Own-Operate (ROO):** This model has the same characteristics as BOO model, but the Private Partner shall obtain ownership rights of the existing Project Asset(s) for rehabilitation of that Project Asset(s);
- **Modernize-Own-Operate (MOO):** This model has the same characteristics as BOO model, but the Private Partner shall obtain ownership rights of the existing Project Asset(s) for modernization of that Project Asset(s);

4- Management Agreement/Operations and Maintenance Agreement (O&M):

The Private Partner shall provide daily services relating to operations and maintenance of existing Project Asset(s) or other state assets owned by the Implementing Agency, in return for service charges payable by Implementing Agency or other parties in accordance with terms and conditions of the PPP Contract. In general, this agreement does not require the Private Partner to invest its own capital and hold any rights to the Project Asset(s) or other state assets. In the event that Project requires the Private Partner to invest their own capital, the Private Partner can recover such investment from payments from the Implementing Agency or other parties in accordance with terms and conditions stipulated in the PPP Contract.

5- Design-Build-Finance-Operate-Maintain (DBFOM): The Implementing Agency grants the Private Partner a right to design, build, finance and provide operations and maintenance services for the Project Asset(s) in accordance with terms and conditions of the PPP Contract. The Private Party shall have the rights to collect revenue through the provision of services mentioned from the Implementing Agency or other parties in accordance with terms and conditions of the PPP Contract. At the end of the contract period, the Private Partner shall transfer the Project Asset(s) back to the Implementing Agency.

6- Design-Build-Lease (DBL): The Implementing Agency grants the Private Partner a right to design, build and lease the Project Asset(s) from the IA, operate, and provide maintenance in accordance with terms and conditions of the PPP Contract.

7- Other PPP Models.
